

AVIS DE SECURITE URGENT

Sur tous les lots de LIO EyeCee One Préchargées

December 29, 2022

Cher client,

Nous vous écrivons pour vous informer qu'un avis de sécurité sur tous les lots de lentilles intraoculaires (LIO) EyeCee One dans ses versions préchargées et qui sont fabriquées par NIDEK et distribuées par Bausch + Lomb (liste complète des produits concernés en Annexe A).

NIDEK a émis cet avis de sécurité pendant qu'elle mène une investigation complète, en collaboration avec Bausch + Lomb, en raison d'un nombre limité de rapports d'hypertension oculaire élevée chez des patients ayant été implantés avec l'une de ces lentilles.

Les analyses préliminaires n'ont jusqu'à présent pas permis d'établir un lien entre ces LIO EyeCee One préchargées et les incidents d'hypertension oculaire élevée ou d'identifier une cause évidente. NIDEK et Bausch + Lomb continuent de mener des investigations sur ces incidents afin de déterminer définitivement la cause profonde de ces incidents et s'il existe un lien avec ces produits.

Veillez prendre immédiatement les mesures suivantes :

1. Cessez d'utiliser les produits concernés (la liste complète des produits concernés figure en Annexe A).
2. Mettez en quarantaine les LIO concernées jusqu'à nouvel ordre.
3. Transmettez immédiatement cette information à tous les destinataires qui ont pu distribuer ces LIO.

NIDEK a informé les autorités sanitaires de ces actions.

NIDEK fournira une mise à jour de ses investigations, ainsi que les actions que les clients devront prendre avec les produits en quarantaine, une fois l'analyse du fabricant terminée.

Nous nous engageons à assurer la sécurité des patients et nous apprécions l'attention que vous portez à cet avis de sécurité.

Nous vous remercions de votre patience à ce sujet et nous nous excusons pour tout inconvénient que cela pourrait causer. En attendant, si vous avez des questions concernant ce problème, veuillez contacter votre représentant commercial NIDEK local :
