## AVIS DE SECURITE (FSN) URGENT

**Référence :** FSN14022024

**Nom commercial du dispositif médical :** DYNASEAT coussin

**Fabricant :** WINNCARE France (ex-PHARMAOUEST Industries)

**Contact national (information) :** WINNCARE France

**FSCA-Identification :** Product Field Action : R2405666

**Type d'action :** Field Safety Corrective Action : Action qualité\_MV

**Dispositifs concernés (REF) :** 327042

**A Prestataires de services et distributeurs de matériel (PSDM), Direction d'établissements sanitaires et médico-social,**

Cet avis de sécurité fait suite à une déclaration d'incident de matériovigilance rapportant un incident survenu en janvier 2024 dans un Centre de soins consécutif à la détérioration de la batterie située dans le boîtier du compresseur dans un contexte de mésusage lors de la mise en charge de la batterie. Il est vraisemblable que l'origine de cet incident soit similaire à celui d'un autre incident survenu en décembre 2022 dans la chambre d'un établissement médico-social avec ce même dispositif médical.

L'analyse, réalisée sur notre demande par un laboratoire spécialisé et par des partenaires experts de la fabrication de batterie, montre que des risques de départ de feu sur la batterie du coussin DYNASEAT sont possibles si la recommandation « **d'éteindre le compresseur avant de mettre la batterie en charge** » n'a pas été respectée (cf. Notice d'utilisation livrée avec le produit).

Dès que vous aurez pris connaissance de cet avis nous vous remercions d'informer les utilisateurs de respecter les conditions suivantes :

- **Charger uniquement le produit lorsqu'il est éteint et non utilisé.**
- **Débrancher le chargeur lorsque la charge est complète (le voyant du chargeur passe au vert).**
- **Ne pas laisser le chargeur branché au dispositif plus de 12h.**
- **Remplacer la batterie tous les deux (2) ans.**

Nous avons pris la décision de remplacer la batterie des produits mis en service depuis l'année 2019 (cf. Liste en **annexe 1**). Si la probabilité d'occurrence de l'évènement est improbable lorsque les préconisations de la notice d'utilisation sont respectées par les utilisateurs, la gravité des dommages potentiels peut être « moyenne » à « grave » liés directement à un produit défaillant, ou mortelle dans le cas d'un incendie non circonscrit.

**Dans le cas où des produits acquis en 2017 et 2018 seraient toujours utilisés, c'est-à-dire des produits en utilisation au-delà de la durée de vie estimée de 5 ans annoncée dans la notice d'utilisation, ceux-ci doivent être retirés du marché.** Se référer à la liste des produits en **annexe 2**.

#### Actions préventives :

- Communication écrite à l'ensemble des clients (PSDM et Etablissements équipés)
  - o Rappel des préconisations précisées dans la notice d'utilisation, précitées en page 1.

#### Actions correctives :

- Remplacer la batterie actuelle des coussins acquis depuis 2019 par une batterie lithium-ion que nous vous adressons par colis postal
  - o En respectant le mode opératoire transmis simultanément ;
- Remplir le « Formulaire de réponse client » annexé et le retourner à :
  - o Service après-vente chez WINNCARE France, Actiparc de Grézan, 200 rue Charles Tellier  
30000 Nîmes, +33(0) 4 66 02 15 15 ou (0)2 51 98 39 24
- Eliminer les batteries dans les filières de recyclage dédiées.

**Précautions : Les batteries retirées doivent être stockées à distance des lieux de vie par sécurité jusqu'à leur élimination.**

- Le formulaire de réponse client pourra être utilisé dans le cas du retrait d'un coussin DYNASEAT acquis durant l'année 2017 ou 2018 (Cf. Liste en **annexe 2**).

L'ANSM est informée de cette mesure de sécurité.

Nous vous remercions de votre confiance.
