

Issy-les-Moulineaux, le 27 février 2026.

Dans une démarche d'amélioration continue de notre portefeuille nous souhaitons vous informer de changements importants concernant notre gamme de sutures résorbables.

À compter du 1er septembre 2026, la distribution de certaines sutures résorbables commercialisées sous les marques VICRYL™, MONOCRYL™ et PDS™ sera arrêtée.

Ces références seront remplacées par leurs équivalents antibactériens VICRYL PLUS™, MONOCRYL PLUS™ et PDS PLUS™.

Les produits antibactériens ne présentent pas de changement dans leurs caractéristiques techniques par rapport aux produits remplacés, à l'exception de l'enduction antibactérienne.

Les produits en stock correspondant aux codes arrêtés demeurent conformes à l'ensemble de leurs spécifications et ne font l'objet d'aucune anomalie de sécurité ou d'utilisation. En conséquence, les produits encore disponibles en stock peuvent continuer à être utilisés normalement, dans le respect de leur date de péremption.

Vous trouverez ci-après la liste des codes produits arrêtés ainsi que les références de substitution proposées.

En attendant, si vous avez des questions, n'hésitez pas à contacter votre représentant commercial ou les départements suivants :

- Service Clients : relationclients-fr@its.inj.com
- Service des Marchés : injmedao@its.inj.com
- Département Médical pour toute question médicale : <https://www.injmedtech.com/mir-fr>

Nous vous remercions de votre confiance et de l'intérêt que vous portez à nos produits.

Nous vous prions d'agréer, Madame, Monsieur, l'expression de nos salutations distinguées.
